Goals & Learning Outcomes
The goals for this position are for the student to develop the following skills applicable in a career post-college:

1. The student will learn strong organizational and time management skills to manage multiple responsibilities to meet a deadline. This skill requires the ability to strategize with peers and administrative personnel to complete a project. The student will manage a written workflow that documents their ability to successfully schedule projects to meet a deadline.

2. The student will develop professional communication skills to become a contributing member in a team environment. The experience of working with multiple administrative staff and faculty members provides the environment for the student to learn to collaborate with different people in a work environment.

3. The student will learn to successfully take the initiative to plan a project from concept to completion and report written results of the project.

4. The student will gain valuable tactical social media skills in translating analytics into strategies, building social media followers, and developing online branding. Results of strategies and online branding will be reported in a written format; social media followers will be reported and tracked on a monthly basis.
